EMPLOYMENT & EXPERIENCE

Project Analyst

Overland Park, KS

Epiq Systems

July 2017 - Present

- **Broader View** – Promotion to this department allowed for a “Full Circle” view of the company. Allowing a valuable perspective to be gained by the team. Leading to greater success.
- **Client Interaction** – The addition of technological knowledge to the team allowed for clearer communication with the client base.
- **Additional learning** – A stronger knowledge base helped the team to reach greater heights, increasing billable hours by 49% over the previous year.

Queue Coordinator and Production Engineer

Overland Park, KS

Epiq Systems

June 2015 – July 2017

- **Pioneer** – The Queue Coordinator role was the 1st of its kind in the company, which developed and improved outdated practices, and increased efficiency.
- **Interdepartmental Growth** – Under this brand new role the relationships between the Client Services and Production departments improved, allowing for a more positive culture.
- **Team Work** – Contributed to the strengths of the team to reach departmental goals. Including raising client success rate to 99.98%
- **Fast Paced** – Achieved success on projects with swift deadlines, some with only 2 hours to complete.
- **Learning Opportunities** – Explored 4 new tools, including proprietary and industry standard software.

Project Manager

Kansas City, MO

Image 360 – Midtown

May 2014 – June 2015

- **Project Management** – Worked directly with 100% of new and existing client on projects ranging in complexity from hourly to monthly deadlines.
- **Team Building** – Coordinated with our design team and production team to convey the needs and desires of the client. Also worked to build a friendly and positive environment.
- **Business Management** – Worked with the owner to promote new business and to maintain current clients. Worked on pricing and maintaining company goals.

EDUCATION

KU Edwards - Full Stack Flex Web Development (in progress)

July 2018
